EXPRESSION OF INTEREST FOR PRIMARY CARE REPRESENTATIVE:

CERVICAL SCREENING WALES SOUTH EAST REGIONAL ORGANISATION GROUP

Public Health Wales works to protect and improve the health and wellbeing and reduce health inequalities for people in Wales. Cervical Screening Wales (CSW) as part of Public Health Wales, is responsible for the NHS cervical screening programme in Wales. Through screening women aged 25 to 64 years, the screening programme aims to reduce the incidences of, and morbidity and mortality from invasive cervical cancer.

As part of its regional organisational structure, CSW run a Regional Organisational Group (ROG.) once a quarter. The purpose of the group is to act as a conduit between CSW and all of its stakeholders – Cervical screening laboratory, histology laboratories, primary care, sexual health clinics and regional colposcopy units. The group provides a forum for discussion around regional operational issues encountered by those represented, as well as an opportunity to discuss interesting cases and contribute to horizon scanning within the programme. The outputs from this meeting are then reported into CSW Programme Board.

An opportunity has arisen in CSW South East Wales region for a Primary Care Representative to sit on the Regional Organisational Group. This opportunity is open to GPs and Practice Nurses from either of the following health boards:

- Aneurin Bevan University Health Board
- Cardiff & Vale University Health Board
- Cwm Taf University Health Board

Commitment as the Primary Care Representative at the Regional Organisational group would involve attending the two and a half hour meeting once a quarter. CSW will provide remuneration for attendance at the meetings.

If you would like further information:

Simon Barney-Darwin (Regional Programme Manager)
simon.barney-darwin@wales.nhs.uk
02920 78 79 20

Louise Dunk (Head of Programme)
louise.dunk@wales.nhs.uk
To be considered as Primary Care Representative, please submit an expressions of interest statement to include your experience within cervical screening.

Closing date for application 22/02/2019
